# Automechanika Academy

Automechanika Academy consists of informative and interactive seminars, workshops, trainings featuring domestic and international expert speakers from the automotive service and related industries, associations and academicians. The programme aims at providing useful and up-to-date information for the R&D, design and production teams of automotive industry manufacturers.

In this special exhibition zone, you'll be able to experience the future technologies of mobility and logistic solutions, vehicles, devices and softwares physically and witness how fast the revolution of the automotive industry takes place over the near future.

## automechanika

The leading trade fair brand for the automotive service industry
